

LEE ENFIELD IN

"THE TOURNAMENT OF DEATH"

LEE ENFIELD IN "THE TOURNAMENT OF DEATH" is the second in the Time Troubleshooter Series in which our hero finds himself in the 13th century. His adventure takes place in the Castle of the Count of Savoy where the Holy Shroud, one of the world's great religious relics, is kept under close guard by the soldiers of Yellow Shadow, Lee's sworn enemy.

Lee has been instructed to find this relic before Yellow Shadow destroys it. He will need a lot of courage and skill to fight his way through numerous rooms and hidden passages as specially trained guards, foot soldiers and even bears bar his way.

His chance of succeeding is very low but Lee Enfield is the man who likes a challenge and there are objects to find which will aid him in his mission...So, it's up to Lee to prove them wrong!
